PROGRAM CONTENT

Wisconsin Legislative Issues Update

Denise Webb, eHealth Program Manager, Wisconsin Department of Health Services

Webb will discuss the State of Wisconsin's activities relative to the HITECH portion of the ARRA stimulus package which allocates funding for healthcare technology grants and loans. Webb will delve into what these activities mean for providers in Wisconsin.

Lean Process Improvement

Tom Laack, Global Lean Leader, GE Healthcare Clinical Systems
Paul Pejsa, Global Lean Leader, GE Healthcare Clinical Systems Global Services

The presenters will cover the topic of information flows in a healthcare devices business, and how issues with these flows were resolved using Lean. Detailed points to be covered include an overview of Lean philosophy and methodology, a discussion of why the quality of information flows is vital to the success of an organization, and then a deep dive into common issues. Solutions to common information flow issues will be presented, along with tools and techniques that attendees can take back to their organizations and apply immediately to achieve positive results. The presentation will conclude with a Q&A session.

EMR Adoption Model: ARRA Relevance and a HIMSS Update

John P. Hoyt, FACHE, FHIMSS, Vice President Healthcare Organizational Services, HIMSS

The HIMSS EMR Adoption Model will be explained and average scores from around the upper Midwest will be shown. The EMR Adoption Model is relevant to the American Recovery and Reinvestment Act of 2009 and this presentation will indicate how they are related. Finally, there will be a general HIMSS update including information on key initiatives for the balance of 2009 and early 2010.

Legislative Issues and Their Impact

Tom Keefe, Senior Director of State Government Relations, HIMSS

Detailed information regarding ARRA and other legislative issues impacting HIMSS members.
